

Our Garden Fence Begins!

On Saturday 20th August, some of the Envirokids- along with their fantastic parents- have officially put up the posts for the fence of the Envirokids vegetable gardens. The builders were Mr Roberts, Mr Davidson and Mr Gunn. The helpers were Mr Maclaurin, Mr Geissmann, Mrs Fleming, Mrs Loveridge and Ms Zhang. The Envirokids who were present were Liam Loveridge, Amy Wang, Joel and Luca Geissmann and Connor Fleming.

First, the builders had to mark where the posts were going to go. Then they had to dig the holes for the posts- you won't believe how mush tools they needed- just to dig some holes! Next was morning tea break- Mrs Roberts made coffee and tea for everyone. Once the poles had been inserted, the cement came. It was mixed in a cement mixer, and then loaded into wheelbarrows to be taken down to where the garden posts were. They filled in the holes and levelled the posts so that they were straight and even. Soon it was the end of this exciting day. Everyone started to pack up and leave. What a fabulous day! The start of the Kimihia Primary School Vegetable Gardens!

We are looking forward to starting to plant the seeds.

A BIG thank you to:

Mr Roberts, Mr Davidson, Mr Gunn, Mr Maclaurin, Mr Geissmann, Mrs Fleming, Mrs Loveridge, Ms Zhang.

And last but not least, Mrs Roberts, who has made all this possible.

-One small step for man, one big step for plant kind.

By Liam Loveridge and Amy Wang
